

## 2022 Range Rover Sport

▶ With sportier design cues and a powerful, muscular stance, the Range Rover Sport is designed to make an impression. Cleaner and more dynamic, this SUV has a contemporary feel everywhere — from the distinctive grille and hood vents to the refined yet sporty wheel options.

From sheer driving pleasure to fuel economy and refinement, each Range Rover Sport engine has been optimized for specific attributes. Ingenium technology underpins the 6-cylinder engine, and the powerful 5.0-liter Supercharged V8 gas engine provides outstanding performance and driver engagement.

The Touch Pro™ Duo in-car infotainment system beautifully integrates two 10-inch high-definition touchscreens. The Touch Pro Duo can be used along with the full-color Head-up Display and Interactive Driver Display to enable the driver to simultaneously view and interact with multiple features at once.

Muscular and perfectly proportioned, the Range Rover Sport is designed to command attention wherever it goes. The presence of the Range Rover Sport is more formidable than ever. With its distinctive silhouette, rearward-sloping roof and continuous waistline, Range Rover DNA is unmistakable throughout. Every aspect of the Range Rover Sport has been designed with precision to create a clean and streamlined exterior. Wraparound LED lights enhance the vehicle's sleek look. Standard Premium LED headlights with signature Daytime Running Lights and optional Auto High Beam Assist attest to the vehicle's contemporary appearance.

Luxurious, supremely comfortable and exceptionally functional, the Range Rover Sport is a driver's vehicle through and through. The signature cockpit has been extensively reimagined — with every element meticulously designed and beautifully executed. Intuitive design features include SportShift Selector; hidden-until-lit, touch-sensitive switches; and a dynamic steering wheel with optional paddle shift. Ensuring the driver is always informed, the 12-inch high-definition Interactive Driver Display delivers entertainment data and driving information. The Head-Up Display allows the driver to keep a focus on the road by presenting key vehicle data — such as speed, gear position and directions — on the windshield. ■

 0-60 MPH: 6.2 sec.

## Interiorscapes as Capital Expenditure

Businesses can incorporate greenery such as plants and moss walls for their worksites as capital expenditures. Admitting it's unconventional, Plant Solutions founding principal Joe Zazzera says, "The use of the budgeting tool is a great way to integrate plants and their benefits into an office environment as we all look for ways to make our employees happy, feel safe and healthy." Zazzera's Scottsdale-based company has been providing design and installation services, ongoing horticultural service, MossWallArt™, plant rentals and living plant

walls to Valley businesses since 1981.

Capital expenditure budget is a formal plan that states the amounts and timing of fixed asset purchases by an organization. The wide array of expenditures that qualify include upgrades to existing assets, the construction of new facilities, and equipment required for new hires and business expansion or contraction - among which, Zazzera points out, the services of plant solutions fit.

The implementation of large-scale interiorscapes and living plants falls into

the category of construction projects, and facility operators can capture the ability to save money on construction projects before they start by providing pre-construction services as well as capital expenditure, budgeting strategies. [plantsolutions.com](http://plantsolutions.com)

### R-DYNAMIC BY LAND ROVER

The R-Dynamic package is all about styling — a lot like M Sport for BMW or S-Line for Audi — inside and out, adding different wheels, upgrades to seat leather, aluminum trim pieces and, on some models, an upgrade to the sound system. R-Dynamic adds around \$6,000 to the price of each trim/engine level.
